MX2615N MX3115N

Workgroup colour document systems

THE RENAISSANCE OF COLOUR

A full colour ledger-size document system that will meet virtually all of your business needs.

MX2615N/MX3115N: FEATURE-RICH AND A STRONG VALUE

Boost workgroup efficiency and productivity with Sharp's new MX2615N/MX3115N full colour MULTI-FUNCTION DOCUMENT SYSTEMS, designed to deliver amazing image quality and consistent day-to-day performance while also being easy to afford. Features include STANDARD PCL®6 compatible printing language, a HIGH RESOLUTION TOUCH-SCREEN colour display with graphical user navigation for easy operation, and a TOTAL PAPER CAPACITY UP TO 3,100 SHEETS. Equipped with a powerful TRUE MULTI-TASKING controller that allows quick processing of even complex print jobs, the MX2615N/MX3115N produces HIGH-QUALITY, vibrant colour documents in-house, helping you save time and money. Sharp's advanced device management tools make it simple for businesses to control system access, colour usage and costs. To make integration with network applications easier than ever, the MX2615N/MX3115N supports the SHARP OSA® DEVELOPMENT PLATFORM. Sharp's industry-leading security helps assure the confidentiality of your intellectual property.

Engineered to deliver performance and productivity

VERSATILE

MULTI-FUNCTION

Powerful

MULTI-TASKING

INTUITIVE

Advanced features plus multi-function capabilities allow you to meet tomorrow's document needs today.

- Powerful true, 600 MHz multi-tasking full colour document system
- High-resolution 7" (diagonal) touch-screen colour display with graphical navigation
- Standard PCL®6 compatible printing system with available PostScript®3 compatible and XPS options*
- 600 x 600 dpi printing provides clear, crisp image output
- Advanced ImageSEND[™] function scans documents to USB devices, network folders, E-mail and more
- ImageSEND function scans documents at up to 50 images per minute in both black and colour
- Convenient Document Filing System with thumbnail view and image preview features
- Available 500 + 2,000 sheet tandem paper drawer, for an online capacity of 3,100 sheets

- Supports the Sharp OSA development platform, enabling businesses to streamline document workflow and help enhance productivity with speed and efficiency*
- Flexible paper handling system feeds up to 110 lb index through paper trays and up to 140 lb. index through the bypass tray
- Optional pull-out QWERTY keyboard for enhanced ease-of-use
- Super G3 fax option with intelligent inbound routing
- Supports Sharp's award-winning security platform with standard 256-bit data encryption and up to 7 times data overwrite protection
- Convenient **end-of-lease feature** overwrites all job data, user data and network information at trade-in time
- Remote front panel feature allows users and administrators to view and control machine operations from a PC workstation
- Environmentally-friendly design offers low power consumption, fast warm up, compact design and long-life parts and supplies

^{*}Some features require optional equipment and/or software.

Intuitive features help businesses soar to new heights

High-resolution touch screen with Stylus pen for easy point-and-touch operation

Available paper capacity stores up to a maximum of 3,100 sheets with options

Sharp's easy-to-use Document Filing System with thumbnail preview

Sharp's MX2615N/MX3115N will help elevate workgroup performance and meet on-the-go business demands.

The Flexibility and Performance You Need

With a high-resolution touch screen colour display and a powerful 600 MHz multi-tasking controller, the MX2615N/MX3115N colour workgroup document system can help elevate your office productivity to the next level. The intuitive menu navigation system with razor sharp graphics makes operating the MX2615N/MX3115N simple and easy. With Sharp's true multi-tasking controller, complex colour print jobs can be processed quickly, even while documents are being scanned. But that's just the beginning — with a standard 100-sheet reversing document feeder, automatic duplexing, electronic sorting and integrated offset stacking, you'll complete even large jobs in a snap.

High-Quality Output You Can Rely On

The MX2615N/MX3115N colour workgroup document system combines enhanced second-generation micro-fine toner technology with 600 x 600 dpi print resolution to produce documents with crisp, clear images and dazzling high-quality colours. Sharp's Image Stabilization System helps ensure uniform density and colour balance for beautiful output page after page.

Professional Performance Your Business Can Depend On

Sharp's MX2615N/MX3115N colour workgroup document system delivers professional performance and optimal productivity to satisfy your daily production needs. Copy/print **speeds up to 31 ppm** (in both colour or B&W) help you to meet project deadlines with time to spare. The flexible paper handling system can feed up to 110 lb index stock through the paper trays and up to 140 lb index through the bypass tray. With available on-line paper capacity of up to 3,100 sheets, the MX2615N/MX3115N is ready when you are.

Innovative Document Filing For Easy Access

Sharp's easy-to-use **Document Filing System** can store frequently used files like forms and templates. Plus, with Sharp's **thumbnail preview** mode, stored jobs can be located and retrieved quickly. An advanced backup system and PIN-access

security helps ensure that your files are safe.

Advanced Finishing Adds The Final Touch

The MX2615N/MX3115N also offers a compact, high-performance finisher with 3-position stapling and an available 3-hole punch that can give your documents a professional look and feel. In addition, an optional long paper feeding tray adds the availability of banner printing within the compact footprint of the MX2615N/MX3115N.

Enhanced workflow features increase productivity

Sharp's easy-to-use print drivers make accessing all of the MX2615N/MX3115N colour features simple and easy.

USB 2.0 port is located on the front panel for easy access*

Impressive workflow efficiency with leading edge features that help deliver optimum results.

Exceptional Print Quality with Professional Finishing

With the MX2615N/MX3115N, your business can produce brilliant, high-quality colour documents, as well as crisp B&W documents. With standard PCL6 compatible printing language, available PostScript 3 compatible and XPS options, documents are printed with superb performance and efficiency. Plus, with 600 x 600 dpi resolution, all of your documents will look great! Powerful finishing features include 3-position stapling for up to 50 sheets and 3-hole punching.*

A True Multi-Tasking Document System

The MX2615N/MX3115N features a **high-performance**, multi-tasking controller that delivers copy, scan, fax and print jobs continuously for optimum efficiency. Some controllers only perform one operation at a time, but the MX2615N/MX3115N continually processes incoming jobs even while existing jobs are output. The result? A workflow that virtually never slows down — even at crunch time.

Direct USB Printing Adds Convenience and Portability

With Direct USB printing, users can print colour or B&W image files in a variety of popular formats directly from USB memory devices such as a ThumbDriveTM or ClipDriveTM.* Need to print PDF brochures in a hurry for a big meeting? It's easy with the MX2615N/MX3115N. Just plug in your portable USB memory device, select the file, and your job prints immediately.

FLEXIBLE DOCUMENT DISTRIBUTION

Integrated Network Scanning

With Sharp's powerful ImageSend™ technology, you get one-touch distribution features that centralize document workflow, help reduce mail costs and save time. With up to seven destinations — E-mail, Desktop, FTP, Network Folders (SMB), USB, Fax and Internet Fax — getting your document where it needs to go is as easy as pushing a button. For increased efficiency, Send to Group mode allows you to mix group broadcast to E-mail, Fax, and Internet Fax.*

Convenient E-mail Distribution

With Lightweight Directory Access Protocol (LDAP), there's no need to manually enter a recipient's complete E-mail address. Simply enter the first few characters and the MX2615N/MX3115N automatically searches and displays a list of matching names. **Unique File Naming** allows users to enter specific file names with custom subject fields, for easy recall of stored files. With **Sharpdesk®** personal document management software, users can organize scanned documents and integrate them into everyday workflow.

Integrated Super G3 Fax and Internet Fax

Add powerful facsimile capability with the optional Super G3 fax module, which features automatic stapled/copied receptions, and Inbound Fax Routing to E-mail. Sharp's innovative PC fax driver enables users to send fax documents right from their desktop. For Internet fax operation, add the optional B&W Internet Fax expansion kit.

Versatile Application Integration

To help streamline document workflow and **enhance productivity**, the MX2615N/MX3115N supports the Sharp OSA development platform. This third generation technology allows users to **interact with network applications faster** than ever before — and right from the machine LCD panel! Sharp OSA technology uses industry-standard network protocols, such as XML and SOAP, allowing the MX2615N/MX3115N to communicate with many different applications. The Sharp OSA development platform is also scalable, so as your workflow needs change, Sharp's application integration can change as well.

^{*}Some features require optional equipment and/or software.

Advanced device management maximizes productivity

Separate print buttons for B&W and Colour allow users to selectively manage use of colour

Embedded web page

Sharp Remote Device Management

The MX2615N/MX3115N implements versatile device management capabilities through user-friendly software to achieve ultimate efficiency.

Sharp Remote Device Management (SRDM)*

Make management of your MX2615N/MX3115N simple and straight forward with Sharp Remote Device Management (SRDM). This easy-to-use software allows you to take control of the versatile system features and simplifies installation and management.

- With **Printer Status Monitor**, network users can view printer conditions, check paper levels, toner, and more, all through an easy-to-use interface.
- With advanced Sharp Remote Device Manager*, administrators can easily manage the setup, configuration, device settings, cloning and more! Advanced features such as Remote Front Panel allow administrators and support personnel to view and control the LCD panel of the machine remotely from virtually any PC on the network! Plus, with event-driven, real-time service alerts, administrators and supervisors can achieve higher productivity. Now, it is easier than ever to view service logs, click counts, history reports and more.
- Experience the convenience of an **Embedded Web Page** right from your desktop! This advanced web-based management tool allows users to create and manage their own network scanning destinations, profiles and web-links. Administrators can access device settings, colour control, account information and security settings.

Take Charge of Colour Usage and Costs

With Sharp's **device management system**, administrators and supervisors can define user groups on the MX2615N/MX3115N to manage and restrict features, such as colour copying, scanning or printing. Easily set up a custom user group to manage page counts (copy, print, scan or fax operations) for both colour and B&W. This helps to simplify cost management of imaging. The MX2615N/MX3115N can **store profiles for up to 1000 users**.

24/7 Online Training with My Sharp™

Managing all of the advanced features of your Sharp product is simple and easy. This dedicated customer training website is customized to your MX2615N/MX3115N and allows you to locate resources and find information specific to your configuration, truly helping you maximize your investment.

Heightened security helps protect your business

To help protect your data, the MX2615N/MX3115N offers several layers of security, making Sharp the optimum choice to help protect employees privacy and intellectual property.* As a leader in office equipment security, Sharp makes it easy for virtually any business or government entity to safely deploy digital copying, printing, scanning and faxing.

Authority Groups

Advanced account management enables administrators to set authority groups for access to features of the MX2615N/MX3115N. Administrators can control which department, for instance, has full access to copying, printing, scanning and/or fax. Walk-up users enter a Code, Local Name and Password, or LDAP User Authentication to access the features assigned to their group.

Data Overwrite and Encryption

To help protect your data, the MX2615N/MX3115N can encrypt document data using AES (Advanced Encryption Standard) 256-bit encryption. The MX2615N/MX3115N can also erase the temporary memory on the hard drive by overwriting the encrypted data up to seven times, offering an unprecedented level of assurance. A convenient **End-of-Lease feature** overwrites all data, including document filing, user data, job status, date and address book.

Network Scanning Access Control

To help protect your network from unauthorized e-mail communications, the MX2615N/MX3115N supports **User Authentication**, requiring users to login before performing any network scanning operations.

Control Device Access Over the Network

To help restrict access to the device over the network, the MX2615N/MX3115N offers IPsec, SMB and extended support for SSL Encryption (Secure Sockets Layer), IP/MAC address filtering, IEEE 802.1x authentication, protocol enable/disable and port management for maximum security.

Documents Remain Confidential

The MX2615N/MX3115N offers Confidential Printing, which when used, requires users to enter a PIN code in order to print a queued document. To help protect your direct-print documents from unauthorized viewing, the MX2615N/MX3115N offers encrypted PDF printing and scanning. Additionally, Secure Fax Release ensures received fax documents are held in memory until an authorized user enters a PIN code.

Tracking and Auditing Information

Legislation and industry policies require companies to be more aware of information flow from their offices. Sharp offers both built-in and additional hardware/software which allows users to control, access and track usage of each device on the network.

Data Security Kit (Optional)

For maximum protection, the optional data security kit offers additional features, such as Data Overwrite at Power Up, Document Filing access control and Restricted Status Display.

These scalable security offerings aim to protect your intellectual property, preserve confidential information and help your business to meet regulatory requirements, such as the Personal Information Protection and Electronic Documents Act (PIPEDA).

*Some features require optional equipment and/or software.

Environmental commitment

An Environmentally Responsible Approach to Product Design

The MX2615N/MX3115N utilizes Sharp's advanced micro-fine toner technology, which offers a lower consumption rate and produces less waste than conventional toners, resulting in longer replacement intervals. Sharp supplies are packaged using fully recyclable materials. Long-life consumable parts help minimize service intervals and downtime, resulting in lower operating costs. With two different energy saving modes, power can be reduced or shut off at set intervals. All Sharp document systems are ENERGY STAR® certified and RoHS compliant to restrict the use of hazardous substances.

Toner Recycling Program

As part of our commitment to helping preserve the environment, Sharp offers customers a toner recycling program for all Sharp copiers and MFP products. Sharp encourages customers to recycle their used Sharp toner cartridges by providing a pre-paid shipping label for their return to our facility. Please visit http://www.sharp.ca/en-CA/AboutUs/SharpAndTheEnvironment/Recycling.aspx to learn more.

Environmental Leadership

As a testament to our commitment to the environment, Sharp is a three-time winner of the ENERGY STAR® annual Excellence in Energy Proficiency **Product** Design. Sharp was also a previous recipient of the *Excellence in* Partnership Green Contractor Award and the Evergreen Award from the General Services Administration (GSA) and the Coalition for Government Procurement. These awards recognize environmentally responsible businesses and their efforts on recycling, waste reduction and affirmative procurement practices.

Global Initiatives

Sharp is committed to environmental sustainability and corporate responsibility including planning, design, manufacturing, distribution and product end-of-life management. For more information about Sharp's environmental leadership including information about energy efficient products, electronics or toner cartridge recycling, please visit http://www.sharp.ca/en-CA/AboutUs/SharpAndTheEnvironment.aspx to learn more.

¹ Some features may require optional equipment and/or software.
² May vary depending on product configuration, machine settings

and operating and/or environmental conditions.

³ Actual transmission time will vary based on line conditions.

Based on Sharp Standard Test Chart with approximately 700 characters, letter size in standard resolution.

⁵ Not available at time of launch.

⁶ Available Q4 2012.
